

H.O.W.

Hip Orthosis Wicking Sock

**Do you know How?
Let us introduce you!**

The Hip Orthosis Wicking Sock from Comfort Products is an ideal companion to a hip abduction orthosis.

The 98% CoolMax and 2% Lycra construction allow for moisture to be effectively wicked away from the skin, while breathing to keep the wearer cooler in the summer and warmer in the winter.

The Hip Orthosis Wicking Sock helps to reduce chafing while keeping the orthosis in place. The H.O.W. sock is lightweight yet extremely durable.

There is an opening in the crotch area for convenience.

The Hip Orthosis Wicking Sock has superior stretch in all directions which allows one size to accommodate most adults.

If you still don't know H.O.W., give us a call. We will be glad to introduce you!

Part Number: HASS
