PVA Bags

High quality, reliable PVA Bags are essential to every orthotic and prosthetic facility that does fabrication.

- For Comfort Products, our MasterCraft trademark is more than just a name.
- PVA bags require high quality raw materials, skill and care to properly manufacture.
- Every PVA bag that we produce combines the highest quality raw materials, the latest equipment and technology, and Comfort Products old world craftsmanship.
- Our strong, narrow seam helps ensure top quality cosmetic results every time.
- We even package our PVA Bags in a special yellow bag for ultraviolet light protection to ensure that your product arrives fresh and ready to use.

Available in standard 2" tapered, at the small end, and nine different widths at the wide end in 40" length and five widths in the 20" length.

All sizes are packed 20 bags per unit.
